protecting your digital cargo

KEY FEATURES & BENEFITS ■ MEDIUM CONVOY ■

travel in style with convoy

Safeguard your laptop and other belongings inside **convoy**, a rugged laptop backpack that makes moving your laptop around a simple exercise.

Comfort and security are key components of **convoy**. The concealed laptop compartment looks like an inside wall of the bag, and the suspended foam cell provides protection on all sides.
There are loads of utility pockets and compartments with plenty of space for books, folders and accessories. The ergonomic harness makes a heavy load more manageable.

Water resistant, light weight canvas gives **convoy** a rugged look and feel, while your laptop gets a smooth ride surrounded by plush chenille.

Convoy comes in a medium size and fits most laptops with 15" screens.
